

LUXURY
OUTDOOR
FURNITURE

An aerial photograph showing a vast, terraced landscape of green rice fields in Bali, Indonesia. The fields are arranged in numerous parallel rows that follow the contours of a hillside, creating a pattern of nested, curved green patches. A narrow, winding dirt path cuts through the fields. In the upper right corner, there is a small, rectangular white building with a red roof, likely a guardhouse or a small shrine. In the lower left foreground, a small pink flag is attached to a thin black vertical line, which extends upwards towards the top center of the frame.

Bali

Hace años que tenemos un idilio con la isla indonesia de Bali. Su luz, sus impresionantes paisajes salvajes, sus playas vírgenes y su gente nos conquistaron desde el primer momento.

Cuando los hermanos Revert, fundadores de Skyline Design®, pisaron esta espectacular región, supieron que era la localización perfecta para fotografiar su catálogo, y así ha seguido siendo los últimos años.

Esta vez hemos querido centrarnos en la espesa vegetación y la maravillosa paleta de verdes que nos ofrece la isla, seleccionando espacios y modernas villas donde nuestros muebles brillen con luz propia, se pueda apreciar su máximo potencial y transporten al espectador haciéndole soñar y desear con poder estar disfrutando bajo el sol de Bali en uno de nuestras cómodas y bonitas piezas.

For years we have had an idyll with the Indonesian island of Bali. Its light, its impressive wild landscapes, its virgin beaches and its people conquered us from the first moment.

When the Revert brothers, founders of Skyline Design®, stepped on this spectacular region, they knew it was the perfect location to photograph their catalogue, and this has continued to be the last years.

This time we wanted to focus on the thick vegetation and the wonderful palette of greens that the island offers, selecting spaces and modern villas where our furniture shines with its own light, you can appreciate its maximum potential and transport the viewer making him dream and wish to be enjoying under the sun of Bali in one of our comfortable and beautiful pieces.

SKYLINE DESIGN® OUTDOOR FURNITURE

Somos una marca española dedicada al diseño, fabricación y distribución de mobiliario exterior de lujo alrededor del mundo. Nuestra firma es reconocida principalmente por nuestras espectaculares daybeds, que han sido seleccionadas para amueblar a muchos resorts y hoteles de las principales cadenas hoteleras del mundo como Palladium, Hyatt, Sheraton, Hilton o Marriot entre otras. Estas piezas aportan un sofisticado diseño a los espacios que amuebla y una agradable sensación de lujo y confort a quien las disfruta, ambos puntos clave de su éxito.

Ponemos especial cuidado en la fabricación de nuestros productos, seleccionando materiales de alta calidad, como fibras sintéticas, aluminio o tapicería impermeable, todos ellos seguros para el medio ambiente y 100% reciclables. Los acabados artesanales del proceso de fabricación, como los trenzados, dan un toque especial de personalidad a nuestras piezas.

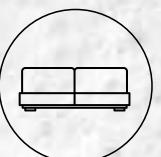

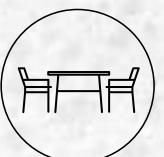

Con una sólida red de distribución alrededor del mundo, conseguimos estar presentes en los cinco continentes, siendo Indonesia nuestro punto de fabricación exclusivo. A esto hay que sumar el nuevo e impresionante showroom que inauguraremos próximamente en la ciudad de Surabaya (Indonesia) y que sin duda supondrá un nuevo triunfo para el reconocimiento de nuestra marca.

We are a spanish luxury outdoor furniture brand which designs, manufactures and distributes around the world. Our brand is mainly recognized for our spectacular daybeds, which has been chosen to furnish many hotels and resorts of the main hotel chains of the globe such as Palladium, Hyatt, Sheraton, Hilton or Marriot among others. These pieces contribute a sophisticated design to the spaces that furnish and a pleasant sensation of luxury and comfort to those who enjoy them, both key points of our success.

We take a special careful development of our products using high quality materials such as synthetic fibers, aluminum or waterproof upholstery, that are safe for the environment and 100% recyclable. The handmade finishes of the manufacture process like the artisan weaving, gives a special touch of personality to our pieces.

With a solid distribution network around the world, we have managed to be present in the five continents, being Indonesia our exclusive manufacturing point. To this must be added the new and impressive showroom that we recently opened in the city of Surabaya (Indonesia) and that will undoubtedly be a new triumph for the recognition of our brand.

SKYLINE DESIGN® OUTDOOR FURNITURE

COLLECTIONS

We introduce a compiling of outdoor furniture collections
capables of adapt to any environment and space,
composed by living, dining and lounger sets.

C O L L E C T I O N

ONA

En esta colección destaca especialmente el living set diseñado por Santiago Sevillano. De carácter moderno y atemporal, sus asientos son extraordinariamente grandes y confortables. La combinación de materiales como la madera de teka, utilizada tanto en las mesas como en las bases, el aluminio, el trenzado de los respaldos y los asientos y respaldos tapizados hacen de esta pieza un elemento tremadamente versátil y combinable gracias a su diseño modular.

In this collection the living set designed by Santiago Sevillano specially stands out. Modern and timeless, its seats are extraordinarily large and comfortable. The combination of materials such as natural rustic teak wood, used both on tables and bases, woven back rests and luxurious upholstered seats and backs make this piece tremendously versatile with endless combinations thanks to its modular design.

ONA COLLECTION LOUNGERS

A woman with long dark hair is sitting on a white outdoor sofa, reading a magazine. She is positioned on the left side of the frame, facing away from the camera. To her right is a large, modular white sofa. The setting is a modern outdoor living area with a concrete floor, a swimming pool in the foreground, and a wall covered in green plants in the background. Several palm trees are visible against a bright sky.

HORIZON

Una de las novedades más modernas de nuestro nuevo catálogo.
Una combinación de aluminio negro, correas de color gris oscuro y
reposabrazos de madera de teca dan como resultado una colección
versátil perfecta para espacios tanto urbanos como relajados.

One of the trendiest additions to our brand new brochure. A
combination of Carbon finished Aluminium, dark grey straps and Teak
wood armrests combine to create this very contemporary collection
perfect for that urban space.

SERPENT

Las formas orgánicas proporcionadas por el trenzado artesanal con cuerda de fibra sintética tejido sinuosamente en la estructura de aluminio hacen de esta colección una opción perfecta para cualquier espacio. Su ligereza y marcada elegancia permiten a esta colección adaptarse y destacar en cualquier estilo.

The intrinsic and unique weaving made with large synthetic fiber rope woven sinuously in the Aluminium structure make this collection a perfect choice for any space. Its lightness and remarkable elegance allow this collection to stand out with a style of its own.

C O L L E C T I O N

M O M A

Esta sofisticada colección ha sido diseñada para destacar. Su característico trenzado le aporta ligereza, mientras que las sinuosas estructuras de aluminio dotan a las piezas de una aparente robustez. El lacado carbón y la cuerda antracita potencia el look moderno y perdurable en el tiempo.
Una vez más, conseguimos una colección versátil con una estética que consigue adaptarse perfectamente a cualquier espacio, ya sea relajado o exclusivo.

This sophisticated collection has been designed to stand out from the crowd. Its characteristic knotted rope weaving gives it lightness, while the sinuous Aluminium structures give the strength needed in the modern world.. The Carbon lacquer and Anthracite rope emphasise the modern and timeless look.

Once again, we get a versatile collection with an aesthetic that manages to adapt perfectly to any space, whether relaxed or formal.

JOURNEY

Uno de nuestros clásicos de referencia y una de nuestras colecciones más amplias. El característico trenzado en forma de estrella y sus suaves formas redondeadas lo convierten en uno de nuestros must-have.

De enorme versatilidad y belleza, consigue convertirse con facilidad en un acierto seguro a la hora de vestir tanto un hogar como un espacio público.

One of our best selling classics and one of our biggest collections. The characteristic star-shape weaving and its soft rounded shapes make it one of our must-haves.

It's elegance and beauty, becomes a hit when furnishing both a home and a public space.

DYNASTY

Una de nuestras colecciones más icónicas. Su diseño está fuertemente influenciado por el mediterráneo, su luz y característico estilo de vida. Los amplios y profundos asientos potencian la enorme comodidad que ofrecen. Por su parte, su característico trenzado en blanco puro aporta una ligereza sin igual.

One of our most iconic collections. Its design is strongly influenced by the Mediterranean, its light and characteristic lifestyle. The wide and deep seats enhance the enormous comfort they offer, and its characteristic weaving developed in pure white provides an unequalled lightness.

HEART

Esta colección representa la esencia de los sillones para zonas de comedor o descanso. Su cuidado diseño de trazos elegantes y fluidos, sus formas evidentes y su confort son una invitación a tomar asiento, relajarse y descansar.

This collection represents the essence of chairs for dining or rest areas. Careful design of elegant lines and fluids, their obvious forms and comfort are an invitation to take a seat, relax and unwind.

DESIGNERS

Noel Royo

Cebu, Philippines

Born in Cebu, Philippines, Noel began his career as a draftsman. After years in the sector, he had a turning point in his life and it is when he decides that he wants to become a world-known designer.

Currently, he is the head of R & D and the Skyline Design® chief designer. Nature and humanity are his main sources of inspiration for his designs, creating pieces that instinctively turn into elegant forms endowed with great comfort.

Noel has a long career with more than two decades of experience in the design world. He has a unique creativity that added to his great knowledge of the latest techniques and technologies has led him to be awarded in several international prestigious events.

Belen Burguete

Onteniente, Spain

The talented designer Belén Burguete, feels passionate about design, technology and good ideas, she was the newest addition the last season and the firm has wanted her to continue.

Based in Onteniente (Valencia), she studied at the School of Arts and Crafts of Alcoy, and founded her own design studio in 2010 called "EstudiB3" which develops all kinds of projects. Belén has designed for Skyline Design® several outdoor sets that have had really good reviews, all of them inspired by nature and created with natural materials that perfectly matches the environment.

Belen Burguete

Santiago Sevillano

Valencia, Spain

Santiago Sevillano was born in Valencia in 1975. After reaching the mastery of upholstered furniture in his father's studio, he studied Industrial Design at the Polytechnic University of Valencia and San Pablo CEU University.

Santiago has been working as a product designer since he finished university, he is a member of ADCV / BEDA. His designs have been published in several media publications, both written (CASAVIVA, CASAHOGAR, DDN, INTERNI MAGAZINE, Merkado, LUST, etc.) or online (Core77, yankodesign, Notcot, Trendhunter, designspotter, desingmilk, design and designo, etc.)

His latest work for Skyline Design® is our cover piece, the innovative daybed Surabaya, manufactured in several colors and available to be combined in different ways.

Noel Royo

SKYLINE DESIGN®

PRODUCTS MAINTENANCE

MATERIALES Y MANTENIMIENTO

Aluminio: El aluminio es un metal perfecto para la fabricación de muebles de exterior debido a sus propiedades antioxidantes, su ligereza y su gran durabilidad, así como por su gran resistencia a golpes y arañazos. Utilizamos aluminio reforzado de entre 1,8mm y 3mm de grosor. Gracias a sus propiedades antioxidantes, se trata de un material ideal para su uso en zonas costeras. Para un correcto mantenimiento recomendamos limpiar regularmente con agua templada y jabón.

Teka: La Teka es una madera con unas propiedades excelentes para la fabricación de mobiliario de uso exterior por su gran resistencia, impermeabilidad, y su gran dureza. El secreto de su gran resistencia a la intemperie se basa en sus ceñidas vetas y aceites naturales. Su limitada absorción de humedad la protege de posibles deformaciones. Para su correcto mantenimiento limpiar con agua y jabón neutro. Igualmente, se recomienda la aplicación esporádica de aceites específicos para Teka que no contengan alcohol ni sustancias químicas.

Fibra sintética: Fibras de polietileno de alta densidad diseñadas específicamente para la fabricación de mobiliario de exteriores. Además de su resistencia a los rayos ultravioleta a la intemperie y a temperaturas extremas, es un material resistente a los impactos y a la decoloración, duradero, fácil de limpiar y respetuoso con el medio ambiente.

Polywood: Material similar a la madera formado a partir de distintos componentes plásticos. El Polywood es un material excepcionalmente resistente a la corrosión y a la intemperie. Los muebles fabricados en Polywood no necesitan de mantenimiento (cepillado, pintura, etc...), a lo sumo limpiar con agua y jabón.

Telas: Tejidos diseñados para resistir todo tipo de condiciones climatológicas. Ideal para su uso tanto en interior como en exterior. Sus fibras se impregnan en tinte durante el proceso de fabricación, dando como resultado tejidos de gran durabilidad.

El tratamiento aplicado a los tejidos Sunbrella les otorga capacidad para repeler el agua y la suciedad, haciéndolos extremadamente fáciles de limpiar. Para su correcto mantenimiento se recomienda lavar a máquina a temperatura no superior a 40°C. Aquellos tejidos que no puedan ser quitados para su lavado a máquina, se pueden lavar a mano con un cepillo suave, agua, jabón y dejar secar al aire libre.

MATERIAL & MAINTENANCE

Aluminum: Aluminum is a near perfect metal for outdoor furniture as it cannot rust, is lightweight and is durable. The aluminum used by Skyline Design is powder coated and 1,8mm to 3mm thick, which ensures a surface resistant to knocks and scratches. Due to its inability to rust, our aluminum furniture is ideal for seaside use. Carefree maintenance we recommend washing it down regularly with warm soapy water.

Teak: Teak has all the attributes needed for excellent outdoor furnishings. It resists decay, repels water, doesn't shrink or swell, ages well, and is incredibly strong. Teak's secret lies in its tight grain and natural oils. The limited absorption of moisture protects the wood from warping. In order to maintain the teak is recommended to clean the surface with water and neutral soap. It is also recommended the application of specific oils for Teak in order to renew its natural softness and moisture. Do not use products with alcohol or chemical substances.

Fiber: High-density polyethylene wicker developed to meet all standard specifications for outdoor furniture. This weaving material offers a carefree outdoor furniture, UV resistant, weatherproof and temperature resistant, strong and durable, colorfast, scratch-free easy to clean, environmentally friendly and 100% recyclable.

Polywood: is made from different blends of thermoformed plastics, UV-inhibited pigment systems, foaming compounds, and selected process additives. Polywood has exceptional resistance to corrosive substances such as oil, salt spray and other environmental stresses. Products made with Polywood have excellent weathering resistance and requires no maintenance when used in outdoor applications.

Fabrics: Innovative fabrics designed to withstand all types of weather, ideal for both indoor and outdoor applications. Sunbrella fibers are steeped in top quality dyes during the manufacturing process making it ultra-durable. The finishing treatment applied to all Sunbrella fabrics repels liquids and dirt, making them extremely easy to keep clean. Sunbrella fabrics can be machine washed at 40°C. Fabric covers that cannot be removed for washing can be cleaned with a soft-bristle brush and soapy water. Rinse with clear water and let air dry.

MATERIALI & MANUTENZIONE

Alluminio: L'alluminio è il materiale perfetto per gli arredi da esterno perché non arrugginisce, è leggero e duraturo. L'alluminio usato da Skyline Design è verniciato a polvere ed è spesso da 1,8mm fino a 3mm, ciò assicura estrema resistenza a graffi e colpi. La capacità di non arrugginire rende i nostri arredi in alluminio perfetti per l'uso in ambienti marittimi. Si consiglia di lavare i mobili con acqua tiepida e sapone neutro.

Teak: il Teak ha tutti gli attributi per essere un eccellente prodotto da esterno. Ha un decadimento lungo, è idrofobico, non storce o si ritira, invecchia bene ed è estremamente forte. Il segreto del Teak è nella sua pasta densa e nel suo olio naturale. La sua limitata capacità di assorbimento lo protegge dallo sporco. Per mantenerlo pulito raccomandiamo l'uso di acqua e sapone neutro. E' anche raccomandato l'uso di olio specifico per Teak per rinnovare la sua naturale morbidezza. Non usare prodotti chimici o che presentano alcool.

Fibre: polietilene ad alta densità progettato appositamente per gli arredi da esterno. Questo materiale intrecciato offre alta resistenza ai raggi UV, resistenza all'acqua e alle temperature esterne, è forte e durevole oltre che facile da pulire. Inoltre è ecofriendly in quanto riciclabile al 100%.

Polywood: il legno sintetico è prodotto con diverse miscele di plastica termoformata, con colori resistenti ai raggi UV e con trattamenti additivi.

Il Polywood è eccezionalmente resistente alla corrosione e a sostanze come olio o sostanze salmastre oltre che agli stress ambientali. Prodotti fatti in Polywood non necessitano di manutenzione e sono perfetti per l'uso outdoor.

Stoffe: stoffe innovative progettate per ogni genere di condizioni metereologiche, perfette sia per indoor che per outdoor. Le stoffe Sunbrella sono il top in qualità e durevolezza e sono super resistenti. I trattamenti finali applicati a tutte le stoffe Sunbrella le rendono idrorepellenti, resistenti allo sporco rendendole estremamente facili da pulire. Possono essere pulite in lavatrice a 40°C. I cuscini che non possono essere sfoderati possono essere puliti con una spugna e sapone neutro per poi essere risciacquati con acqua pulita e lasciati asciugare al sole.

SKYLINE DESIGN®

COVERS

FUNDAS

Las fundas de Skyline son impermeables y repelen el agua, el aceite y la suciedad, protegiendo el mueble de forma eficaz. No utilizar para cubrir los cojines de forma permanente, porque se podría formar humedad junto a las costuras de la funda y dejar manchas de moho en la tela. Antes de utilizar las fundas, el mueble y los cojines tienen que estar secos. Tenga en cuenta que las fundas están adaptadas especialmente a sus muebles y es necesario colocarlas correctamente. No guardar o doblar las fundas húmedas, dejar que se sequen en un lugar con buena ventilación. Para limpiar las fundas utilice un paño suave, agua caliente y un producto de limpieza suave si es necesario. Los disolventes no son aptos para la limpieza de las fundas porque pueden atacar, dañar o decolorar la superficie a tratar.

COVERS

Skyline covers are backcoated to resist water, oil and dirt, functioning to protect the furniture. They are not recommended as a permanent cover for cushions, as moisture may collect and lead to the formation of mold stains. Furniture and cushions should be thoroughly dry before using the covers. Please note that the covers are especially tailored to your furniture item and precise placement is required (indicated by the yellow or brown piping). Never pack or fold covers that have become wet; instead, let them dry in a well-ventilated place. Use a soft cloth and warm water to clean the covers, using a gentle upholstery cleaner if necessary. Solvents are not suitable for cleaning the covers as these are aggressive to the surface and may cause damage and decoloration.

COVER INVERNALE

Le Cover Skyline sono impermeabili e repellenti ad olio e sporco, progettate esclusivamente per proteggere i nostri arredi. Non sono indicate come coperture permanenti in quanto possono accumulare umidità e sporcizia nella parte superiore. I mobili e i cuscini devono essere asciutti prima di essere coperti dalle Cover per evitare la formazione di umidità interna. Le Cover sono prodotte su misura per ogni articolo e devono essere usate come da istruzioni (cartellini gialli o marroni). Importante non piegare e riporre le Cover quando sono bagnate, assicurarsi che siano asciutte per evitare la formazione di muffe. Utilizzare uno straccio morbido e acqua calda per pulire eventuali zone sporche, se necessario usare un detergente leggero. Non usare detergenti aggressivi o solventi che andrebbero a rovinare e/o decolorare le Cover.
